OBJECTIVE

To obtain a full-time nursing position at UCSF Benioff Children’s Hospital, and to assist in the goal of delivering excellent, patient-first care in accordance with the mission of this institution.

EDUCATION

Bachelor of Science, Nursing (BSN) June 2014 (anticipated)
University of San Francisco GPA: 3.42 (cumulative)

Senior project: Best Practices in Nursing Care for Pediatric Acute
Lymphoblastic Leukemia

Bachelor of Arts, Sociology (BA) June 2008
Chapman University, Orange, CA

CLINICAL EXPERIENCE

Senior Practicum: Unit 4A, UCSF Benioff Children’s Hospital, San Francisco
(Spring 2014)

- Patient population: pediatric oncology patients
- Skills learned: focused assessments for pediatric oncology patients, administration of neo-plastic medications, pediatric chemotherapy and radiation protocols.

Complex Care of Adults: Unit 2B, California Pacific Medical Center (Fall 2013)

- Patient population: adults having undergone gastro-intestinal surgery and/or oncological surgery
- Skills learned: critical thinking/nursing judgment, medication administration (PO, SC, IM, IV), postoperative teaching, interpretation of lab results, assessment of functional limitations, care of patients with neutropenic precautions.

Adult Medical/Surgical Nursing: Unit 1 SW, Saint Francis Memorial Hospital (Fall 2012)

- Patient population: general medical patients.
- Skills learned: basic nursing assessment, collection and reporting of vital signs, assessment of activities of daily living, therapeutic communication, patient care planning and prioritization.

WORK EXPERIENCE

Sitter/Observer, UC Irvine Medical Center, August 2011 – December 2011

- Sat with patients who were at high risk for falls to maintain safety
- Observed patients who were at risk for suicidal behavior on a 1:1 basis to maintain safety

U.S. Peace Corps, Kenya, March 2009 – April 2011

- Helped the community evaluate environmental and health-related needs and produced an action plan detailing goals and objectives
- Assisted community in assembling a budget and writing a proposal for funding for construction of two classrooms for the village school
- Health work:
 - Taught village women how to make anti-mosquito cream and worked with other volunteers to provide education on the importance of mosquito net usage for malaria prevention
 - Assisted village health providers in primary care and met with local NGO representatives to facilitate improvement of the village health post by obtaining basic medication and supplies
 - Took patient histories and worked as an interpreter for a malaria clinic in a nearby city

Health Care, Inc., Anaheim, CA January 2008 – February 2009

- Helped uninsured patients at the UC Irvine Medical Center obtain health insurance through state Medicaid and federal Social Security Disability Insurance Programs.
- Interviewed patients and assessed health and financial histories to determine program eligibility
